

Advisor Agenda – 10th & 11th Grades

Thursday May 28th

1. Read Daily Bulletin

2. Distribute Library Notices

In your mailboxes you will find strips of paper attached to a hot pink instruction sheet. Please distribute the notices and follow the directions provided.

3. Activity – Summer Job Opportunities

Last week, Nancy Pliskin placed a stack of green two-sided sheets in your mailbox. Listed are the various summer opportunities available to our students along with a listing of jobs Advisees have worked in the past at different grade levels. Please pass around the sheets (students will have to share) and engage in a discussion in summer work and experiences.

I have attached a recent article about the difficulty many teens are facing finding summer jobs if you need something to start the conversation.

Here is a website advisees may want to check out before looking for that summer job.
<http://www.teens4hire.org/>

Other Discussion Ideas/Job Hunting Questions

- 10th Grade - What will you be doing this summer? Do you have jobs, if so where? Check the second side of the sheet for ideas and then ask them to come up with others. Any students under 16? Where can a 15 year old earn work experience to make them more employable once they become 16?
- 11th Grade - What will you be doing this summer? Do you have jobs, if so where? Check the second side of the sheet for ideas and then ask them to come up with others. Will anyone be doing community service or additional learning experiences? Describe your plans.

Advisor Agenda – 12th Grade

Thursday May 28th

4. Read Daily Bulletin

5. Special Announcement – Crescent Crier

Crescent Crier is putting together a senior issue this year to give you a chance for senior quotes. Please give your advisor a slip of paper with the following information by the end of Advisor period.

- Your name (first and last)

- An appropriate quote that you would like people to remember you by
- Your plans for next year

Anyone who does not wish to have a quote or would not like to participate at all will still have their name published in the Senior Issue. If this is a problem, please contact Kip Carlson in the Career Center. The last day for submission is Wednesday, June 3rd.

Advisors – Please return these quotes to Kip Carlson’s mailbox.

6. Distribute Library Notices

In your mailboxes you will find strips of paper attached to a hot pink instruction sheet. Please distribute the notices and follow the directions provided.

7. Please read the following to your advisees

The following career related learning activities are required to pass advisor. If you do not complete these activities you will be given an Incomplete for advisor for the year. If you do not pass advisor you will not earn your .50 career credit required for graduation.

- 12th grade – Extended Application, Reflection, Updated Resume, Mock Interview

*If they have questions or need help direct them to Louanne Collins or Kip Carlson in the Career Center D18 757-5813.

8. Career Activity – Who is missing what and will they be passing advisor?

- In your box you will find two CRL spreadsheet printouts. Please share these with your advisees so they can check on if they have been marked Done, Inc., or blank for each of the required career related learning activities. If they are marked Inc. they probably have directions written on that activity (in their advisor folder) and they need to make the changes and turn it in again.
- Please encourage them to write down what they are missing and to complete it ASAP.
- It is also a good idea to show them their advisor folders so they can see what paperwork has been collected.

Louanne Collins, Career Learning Specialist

Summer Possibilities 2009
