

* 121523 **Latin 2.1** 9–12 Interactive

The first semester of second year Latin. Students will continue to study the syntax, vocabulary, and literature of Latin. However, we will concentrate on translating Latin more than anything else. The procedures for second year Latin are very different from COOLSchool's first year Latin, so be sure to read the Procedures page of the course before beginning your studies. The text we will be using is from Ritchie's *Fabulae Faciles* and is embedded in the course. Successful completion is based on student submissions and maintaining consistent communication with the teacher.
