

Advisor Agenda – 9th, 10th, 12th Grades

Monday, April 20th

1. Read Daily Bulletin

2. Activity Reminder – Leukemia Drive Continues

Just a reminder to all Advisor groups to please take the time to pass around the Leukemia Drive bucket and collect any spare change for a good cause.

3. Special Announcement – Voter Registration

All Juniors and Seniors – The League of Women Voters will be here on Tuesday 4/21 in the Career Center to register 17 year old students to vote. If you would like to register to vote, please be sure to have either your Social Security number or Oregon Drivers License number with you when you stop by the table.

4. Special Announcement – Lunch Cart

The cafeteria is now offering lunches for sale on a mobile lunch cart. Sales are cash only and students can purchase sandwiches and smoothies on this traveling cart. Look for it in the main hall on cold and rainy days and in the quad when the sun is shining!

5. Activity – Review Diversity Survey Results

Please Note: Cherie will have the necessary information for Monday’s advisor in your boxes by noon on Friday. You shouldn’t need to do any extra planning, just provide a serious and conscientious tone to the environment on Monday. Cherie is hoping that students will see a connection between their responses on the survey and the possibility for action in school improvement.

From Cherie...

“I also want to request that you take Monday’s advisor agenda seriously. The agenda is focused on sharing the results of the diversity/inclusion survey students completed earlier this year in their B block classes. I had hoped to be able to share these results with students myself, through class meetings in the auditorium. The number of special events has precluded my ability to do this, so I am really counting on the advisory groups to take the dissemination of the information seriously. I know some of you feel that advisor agendas are not always valuable, but I really want student feedback on the survey results as planning tool for school improvement. I will also be asking for students interested in working on school culture to submit their names to you. Finally, the CV site council is working on a school improvement goal based on student feedback. We are sharing this information now as preparation for Diversity Week, which is April 27th-May 1st.”
