

Osmosis:

Diffusion of water through  
a semi-permeable membrane.

HYPOTONIC

HYPERTONIC

OSMOSIS -  $H_2O$  moves INTO cell

Hypotonic: Describes a solution that has more water than a cell

OSMOSIS -  $H_2O$  moves OUT of cell

Hypertonic: Describes a solution that has less water than the cell

NO OSMOSIS

Isotonic: Describes a solution that has the same amount of water as the cell
