

Field Biology:

You need notebook + pen or pencil

LINEAR VEGETATION TRANSECT:

random lines
determine where
you look

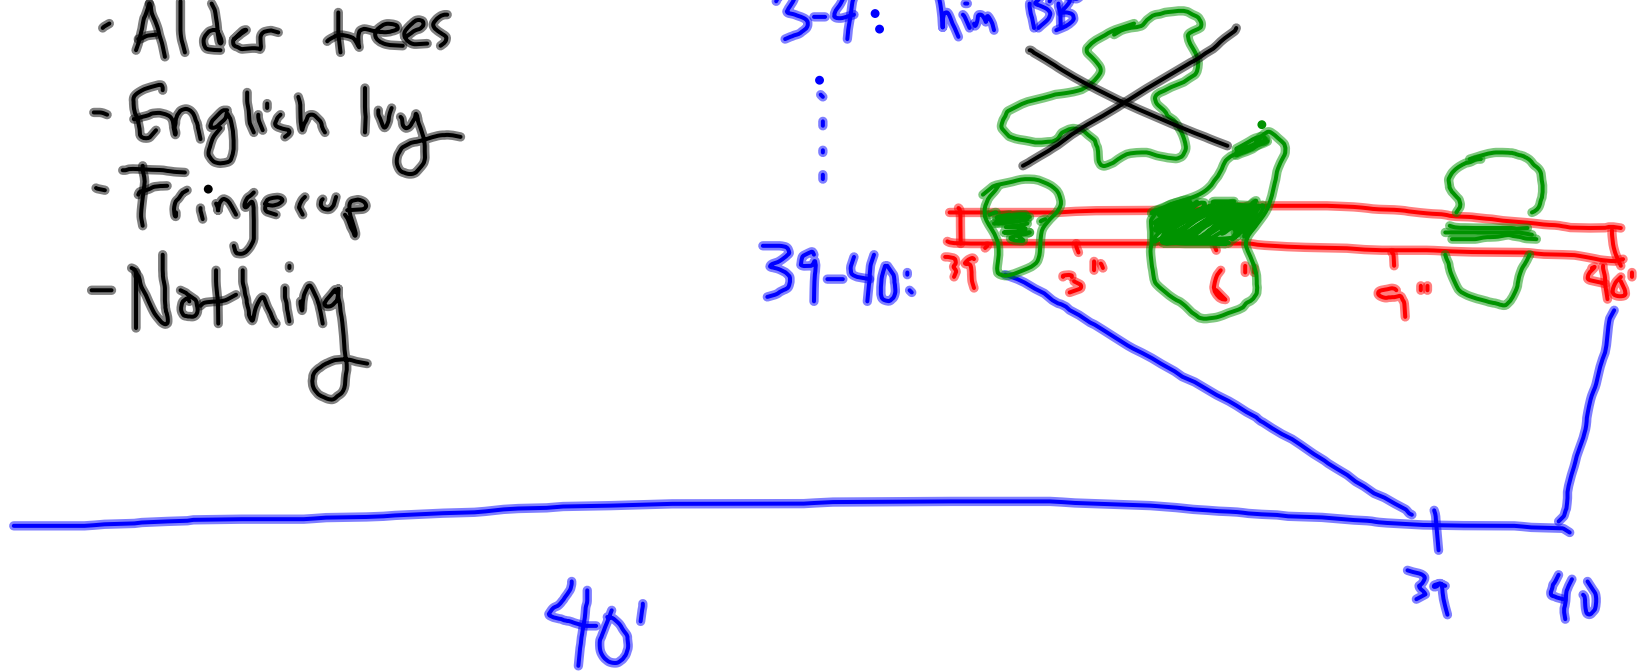

- grasses & small plants
- OR
- shrubs
- OR
- trees

- We'll look at medium-sized plants:

- tall grasses
- him. BB
- trailing BB
- Alder trees
- English Ivy
- Fringerup
- Nothing

- 0-1: grasses
- 1-2: hom. BB
- 2-3: nothing
- 3-4: him BB
- ⋮

39-40:

To analyze:

NN	Him	BB	8
N	Ti.	BB	4
NN	Ivy		3
N	Fingecup		11
NN	Grass		7
N	Alder		4
	Nothing		3
			<hr/>
			40

— most / least dom.?
Fingecup ↑ Ivy ↑

— ratio of native/non-native
 $19/18 \approx 1:1$

— % vegetated
 $37/40 \approx 92\%$
