Special Note

The At-A-Glance School and District profiles tell a story about Oregon's schools and districts. The story is harder to tell this year as the COVID-19 pandemic significantly impacted our schools and the data we collect. As a result, statewide assessment and attendance data cannot be compared to prior years and are not shown here. We have included links to our website where you can view the 2020-21 statewide assessment and attendance data and read a detailed description of how these data were impacted. We're thankful for your partnership as we focus on care, connection and the creation of safe, inclusive and supportive learning environments.

School Goals

At Adams Elementary, our mission is for all children to be lifelong learners who are compassionate and caring members of our world community. We honor the unique abilities of every child by creating challenging and realistic learning opportunities for all.

Our focus on Multi-tiered Systems of Support ensures that students who are in need of reading and math intervention receive the help that they need.

Adams staff members are dedicated to equity based intervention services in order to achieve the district goals of Closing the Opportunity Gap, Growth for All, and Every Child a Graduate.

State Goals

The Oregon Department of Education is partnering with school districts and local communities to ensure a 90% on-time, four year graduation rate by 2025. To progress toward this goal, the state will prioritize efforts to improve attendance, provide a well-rounded education, invest in implementing culturally responsive practices, and promote continuous improvement to close opportunity and achievement gaps for historically and currently underserved students.

Safe & Welcoming Environment

PBIS is a program designed to teach respect, responsibility, and safety at our school. We encourage students to make positive behavior choices by implementing this program.

Through instruction, comprehension and regular practice, all staff members implement a consistent set of behavior expectations and rules. When some students respond in unexpected ways, we view it as an opportunity for re-teaching, not punishment.
