BARKER-UERLINGS
INSURANCE

May 16, 2019

Issue 1: Mitigating Financial Risks Associated with Recovery from School Assaults

The State of Oregon has not established a fund for such purposes.

There are two markets for this type of insurance, McGown and McKee Risk Management. We will work to obtain quotes and present them for your review. This was on our agenda to discuss when we met for the renewal.

Issue 2: Mitigating Financial Risks Associated with Sports Associated Neurological Injuries

The State of Oregon has not established a fund for such purposes.

There are no "sport injury" exclusions on the District's General Liability Insurance. If the District was held liable for the injury, the Oregon Tort Cap would apply which is currently at $727,200 for Bodily Injury per Person. The District currently has a $10,000,000 per occurrence limit.
