

Home Guide for the iPad

Call the Technology Hotline at 541-757-5862 to see if there are any known issues in the district that might affect the following procedures.

Content

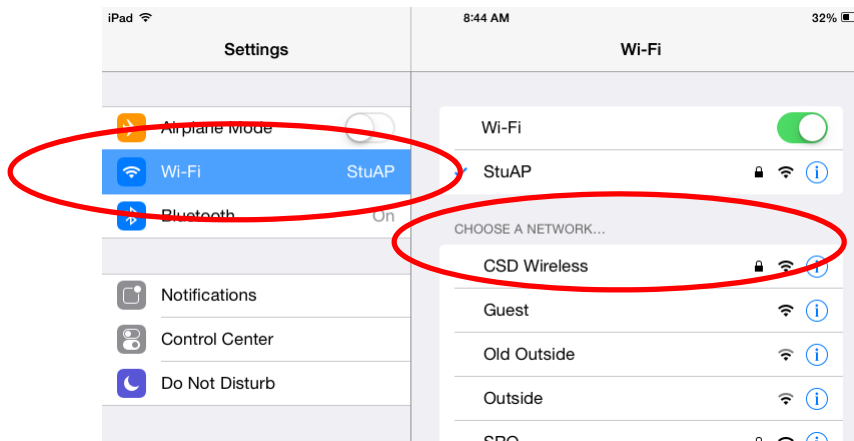

Part 1: SETUP Wi-Fi

Part 2: CONNECT THROUGH THE FILTER TO THE INTERNET

Part 3: DOWNLOAD APPS FROM SELF SERVICE

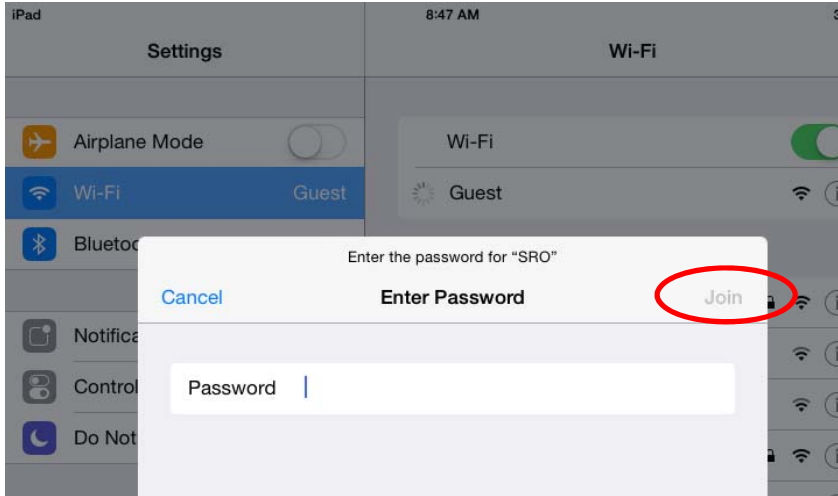

Part 1: SETUP Wi-Fi

1. On the iPad, tap **Settings**
2. In the left pane, tap **Wi-Fi**.
3. In the right pane, under **Choose a Network**, tap the name of your home WiFi network.

4. In the pop-up window, type the password to your home WiFi, then tap **Join**.

Part 2: CONNECT THROUGH THE FILTER TO THE INTERNET

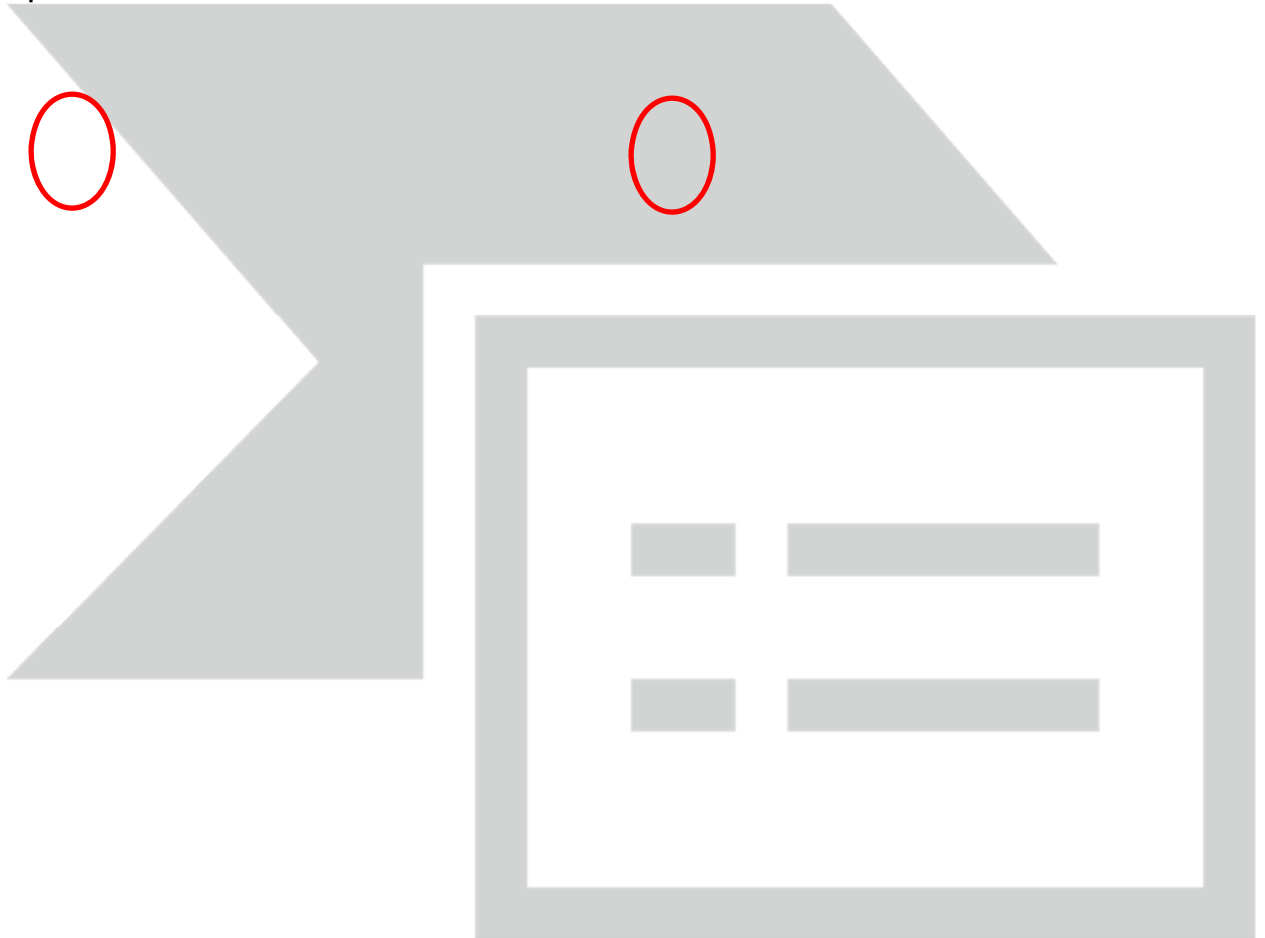

Student devices are required to go through the district's Internet filter even when they connect through an outside Wi-Fi network, such as at home. In this situation, students must manually authenticate to the filter prior to using an app or navigating to a website. In order to do so they will need to set their iPad to filter through the proxy manually. Below are the instructions.

5. Tap the overlapping pages icon in the upper right.

Home Guide for the iPad

6. Tap the X in the upper left of each open webpage to close out all the open websites.

Home Guide for the iPad

Part 2 continued:

7. Tap the Home button once to return to the main screen.
8. Open the Safari browser  and type in the web address of any appropriate website.
9. In the iBoss filter login screen, type **john** for the username and **john** for the password. Click **Submit**.
10. Proceed to navigate in the web browser and use the apps needed for the assignment.

Part 3: DOWNLOAD APPS FROM SELF SERVICE

11. If you haven't done so, complete Part 2 of this document first.
12. Tap on the **Self Service app**  (you may need to swipe to the left to get to another screen).
13. Tap **Install** next to each app needing to be installed. If prompted, type in your Student Account password ([Upper case first initial][Lower case last initial].[8-digit Student ID]) **Notice the period!**
