

PREPARING OUR FUTURE LEADERS

Youth Voices in Action /OLI II Empowers youth to engage in positive change

A four-day Youth Voices in Action conference sparks culturally diverse cohorts of 8th to 12th grade students to engage in community change and local, state and global citizenship endeavors.

Youth are inspired to:

- Think critically and share ideas
- Engage in problemsolving
- Practice public speaking
- Build cultural knowledge and competence

Youth action teams learn about issues agencies are grappling with, then working together, research the issue, develop a plan and response, and prepare a formal presentation for agency representatives, 4-H faculty and peers. Meeting with legislators, learning how government works, and participating in mock hearings are also part of the experience.
