

RIVALRY MEANS NOTHING WITHOUT HEART.

More athletes die from Sudden Cardiac Arrest than any other cause, and most show no symptoms and have no history of heart problems.

Studies show physicals are only 1% effective, but adding a simple electrocardiogram (ECG, also known as EKG) catches up to 94% of heart issues.

WILLAMETTE VALLEY YOUTH HEART SCREENING

The Corvallis School District does not necessarily sponsor this organization or its activities. The District assumes no liability for its contents or events arising out of this distribution.

Simple, quick \$20* heart screenings for youth 11 & over.
